

Quality Policy

Donatella Arcand
15/05/2024

Our Mission: To capture the talent that allows us to improve the quality of life of our customers.

Our Vision: To revolutionize the way companies provide health monitoring systems.

Our Values: Trust, value, proactivity vs. reactivity, a drive to learn, innovation and originality.

CLIENT ORIENTATION:

A large part of our success lies in our partnership with our customers. We try to satisfy and exceed your expectations.

MUTUALLY BENEFICIAL RELATIONSHIPS:

We maximize our efficiency and create value through a wide network of partners and collaborators, always providing the highest level of professionalism.

TEAM PARTICIPATION:

We want a work environment where conversation, trust and collaboration are tools for progress. We are a team that works for mutual benefit.

CONSISTENT EFFICIENCY AND EFFECTIVENESS:

We operate in an industry where technology is constantly evolving, and we must constantly adapt to new circumstances, being self-critical and identifying our weaknesses.

PROCESS-BASED APPROACH:

We have a work system in which we have identified the processes that have value. We use the information about our processes to guide our strategic decisions and operations.

FOCUS ON THE MANAGEMENT SYSTEM:

Ensuring compliance with legal and regulatory requirements is fundamental to maintaining the effectiveness of our system, so we can better achieve our goals.
